

7th April 2020

Dear Parent/Carer,

We have made the difficult decision to cancel work experience for our year 10 students. Businesses are currently not in the position to offer placements to students and all placements require a series of health and safety checks which we are unable to carry out in the current climate. On our return to the Academy, we will continue to provide opportunities for students to engage with local employers, colleges and training providers.

In the meantime, we will signpost (through email) students to any virtual careers events and resources which may be of interest.

Kind regards

Mrs E McDermott
Assistant Vice Principal
Registered Careers Leader
