

CRICKET

at Castle View Enterprise Academy

Castle View Cricket Academy has been established since 2013 and offers an outstanding provision throughout education. We now offer an excellent coaching package to link primary schools in order to identify potential talent at an early stage, before building on this within secondary provision.

What Do We Offer?

- Specialist Cricket Coaching by three in-house ECB-qualified coaches, supported by Durham County Cricket Board.
- Individually tailored fitness programme.
- Negotiated timetables where appropriate.
- Access to indoor and outdoor training facilities.
- Competitive opportunities. Students will participate in a full summer programme of fixtures against a range of state and private schools, at top facilities.
- Formal links with local cricket clubs.
- Sporting links to further education.
- Leadership roles, including access to formal qualifications by Durham County Cricket Board officials.
- Students monitored through academic and sporting progress via a termly report.
- Free Cricket Academy training kit in year 7 and year 9 and CVCA tie.
- Visits to Emirates ICG for work with Durham County Cricket Club.
- Tickets to Durham County Cricket Club fixtures.
- Cricket tours.
- Annual awards dinner.
- Formalised contract.

Durham County Cricket Board

The Castle View Enterprise Academy cricket programme is an outstanding scheme. Cricket as a sport provides a unique opportunity to develop skills and attitudes that will serve players well throughout their lives.

The facilities, personnel, coaching and environment at the Academy are first class. The training is comprehensive and supportive, allowing everyone to develop as their ability allows. The match programme gives players an opportunity to cut their teeth in the middle where it counts. I am sure everyone will thoroughly enjoy their involvement with the Academy.

The Cricket Academy at Castle View Enterprise Academy is the first of its type in Durham. I would like to wish everyone the best of luck and urge as many people as possible to get involved. Cricket is a great game I am sure you will have a fabulous time whatever your involvement is. I am looking forward to seeing you on a pitch or in the nets soon.

Hopefully one day someone from the academy will join the professional ranks here at Durham CCC... Good luck.

John Windows, Academy Manager, Durham County Cricket Club

A Student's Perspective

Castle View Enterprise Academy has amazing opportunities that not many schools in the country can offer. Our very own Cricket Academy. Cricket in the Academy is a great opportunity to progress and succeed to become a good cricketer plus grow as an individual. You meet some great new people and learn how to work well as a team. Just a few years ago, what is now a very competitive cricket team, started as a hopeless bunch of lads that for the most part couldn't throw the ball straight. With a lot of hard work and dedication from our qualified coaches; Mr Marshall, Mr Appleton, Mr Rainbow, and some dreaded 6.30 starts by us, we became Sunderland Indoor Champions. We have been on a tour of Manchester facing tough opposition. It was a fantastic experience that I'm sure your child would love to have in the future....

... Castle View Enterprise Academy thrives at giving your child a taste of what it's like in the real world to set them in good stead for years to come. With the Cricket Academy this is no different. You go through an interview process to earn a place in the Academy. This is a great way to expose your child to what it's like in a real job interview. In addition, there are certain expectations that come with being in the Cricket Academy. Such as, your school work should always come first, so there is no worry of school work standards dropping. This is just one of the expectations. Our three trustworthy coaches make sure they get the best out of you on and off the field, which really helps during your early life at the Academy.

Elliott Campbell.

Our Coaching Team

Mr A Marshall

I am an ECB Level II coach who has been coaching in schools and clubs for 20 years. I have coached players in Durham County age group teams for the Durham Cricket Board. I have introduced numerous players to the game from the start of their secondary schooling, who have gone on to represent County age group sides and the Durham Cricket Academy. A huge number of players who were introduced to the game, initially through my coaching, still represent clubs at various levels throughout the North East. I currently represent a local club where I am 2nd XI captain. I am also involved in the administrative side of the game through my work as Durham County Schools' Cricket Association Competitions Secretary and North East Premier League Junior Competitions Secretary.

Mr M Appleton

Since joining Castle View Enterprise Academy in 2011 I have been heavily involved in the delivery of our outstanding cricket provision. I am an ECB Level II coach and I have recently completed three specialist courses which focus on, video analysis, new coaching techniques and team management. As well as playing first team cricket in the North East Premier League (NEPL) I am also a member of the NEPL management committee where I chair the Junior Committee. Outside of playing and administrating, I actively coach in Castle View Cricket Academy, as well as at a local club. During the winter months I am also employed by Durham Cricket Board on a casual basis to assist with the delivery of coaching to junior county players.

Mr C Rainbow

I was employed by Castle View Enterprise Academy in 2013 as a specialist primary cricket coach, as well as delivering the coaching provision within the Academy. I am an ECB qualified coach and have been so for ten years. I also assist in running a junior section of a local cricket club as well as working for Durham County Cricket Board, where I coach representative teams. I am currently a 1st XI captain at one of the leading clubs in the North East Premier League and have represented Durham County Cricket Club at Academy level.

FOOTBALL

at Castle View Enterprise Academy

The aim of Castle View Football Academy is to develop lifelong footballers with the discipline and determination required to constantly improve and achieve excellence. Castle View Football Academy is committed to providing all children with the highest possible standard of coaching and education needed to help them achieve their personal best and life aspirations. We currently deliver an outstanding primary and secondary school football provision and have access to excellent facilities including our state of the art 3G training pitches. We also have strong links with local further education colleges to provide a natural step of progression both in terms of football and academia once our pupils' secondary education is complete here at Castle View Enterprise Academy.

What Do We Offer?

- Specialist Football Coaching delivered by in house FA-qualified coaches, supported by ex Sunderland AFC professional footballers.
- State of the art, £500,000 FIFA one star rated 3G pitch.
- Leadership opportunities through coaching and officiating including access to formal FA qualifications.
- Fitness and coaching programmes individually tailored.
- Termly reports regarding football and academic progress.
- Competitive opportunities with schools and clubs from across the North East region.
- Links with Sunderland Football Club.
- Access to state of the art fitness and training facilities at Sunderland College and guaranteed trials for their Football Development Squad.
- Links with local football clubs
- Nike Football Academy training kit and CVFA tie.
- Bespoke guidance and mentoring from experienced sports staff.

Partner Perspective

"The girls' football at Castle View Enterprise Academy has really grown over the past year, with more girls attending football training sessions than ever before. The girls have not only developed their football skills and fitness levels, they have also developed socially by taking part in the sessions. The dedicated coaches within the Castle View Football Academy have really helped improve the quality of football across all pupils who take part to a good standard."

Caroline Ames, Foundation of Light Coach.

Student Perspective

I am always looking to develop further and improve my skills so when I found out that Castle View were starting a new Football Academy I was excited about the challenge. The Football Academy is helping me to learn more about the great game and I have also found that teamwork can be used off the pitch as well as on the pitch. To be selected as the Football Academy Captain made me feel very proud and also determined to repay Mr Tumelty's belief in me and my ability to lead the team. Being part of the Football Academy has brought some great opportunities this season such as beach football, specialist coaching to help me improve my tactical awareness and training with ex-SAFC pro David Rush. As part of the Football Academy we are given the opportunity to go on tour and take part in a National Football Tournament in another part of the UK which is something to really look forward to. I really enjoy being a member and captain of the Football Academy and would recommend anyone interested in football to join.

Aaron Cappellar.

As a young female footballer I play regularly for a local club team and enjoy the competitive nature of the game. When I joined Castle View this year I was pleased to hear they had a girls' football team as well as a Football Academy which aims to develop your skills even further. I therefore worked very hard in training to be considered for a place within the Football Academy. When I was awarded my Football Academy tie I was very proud of my achievement. Now I get to play regular competitive Academy matches both within the girls' and the boys' teams where we have separate Nike football kits as well as train three days per week on an excellent 3G pitch all of which I really enjoy.

Rhianna Wise.

Football Academy Team

Mr L Tumelty

FA Coach/Football Academy Lead/Teacher of PE

I am a qualified PE teacher with over four year's experience of teaching many sports within the National Curriculum with my main specialism being football. I have coached several youth teams as an FA Level 2 qualified coach, ranging from under-11 to under-16 levels within schools, and I currently coach our year 7 and 8 football squads. I currently play for a local Northern Alliance football team and assist with training the under-14 boys squad.

In my current role as the Football Academy Lead I am responsible for planning and delivering an outstanding primary and secondary football provision and using my experience to develop young footballers of the future.

Major I McGuire

FA Coach/Football Academy Coach/Football Development officer

Csgt M Robson

FA Coach/Football Academy Coach/SSI

Both coaches have recently retired from active duty within the British Military serving for over 30 years. In their role as Football Academy Coaches at Castle View they are responsible for the delivery of high-quality coaching sessions both in local primary schools and in the Football Academy, to develop the skills of future players of the game. Both coaches are FA qualified Level 2 coaches and have experience of coaching youth teams. They also deliver the Academy's own Royal Fusilier Cadet Force.

Inspire Stage School

@ Castleview Enterprise Academy

Inspire Stage School was established in January 2015. We specialise in teaching children in dance, singing and drama. Along with the support and facilities of Castle View Enterprise Academy, we offer the best professional environment for performing arts in the North East.

Our aim is to nurture and develop talent in the North East by offering our students the very best tuition from our highly-qualified and motivated members of staff. We work attentively with our students in acting, and movement techniques through dance and vocal coaching.

Whether your child is a budding ballerina, dramatic entertainer or a musical wonder, we have the right sessions to suit their needs. Inspire Stage School will turn your little performers into big stars!

MAIN STAGE SCHOOL
FOR 5-16 YEAR OLDS
10AM-1PM EVERY SATURDAY

Dance

Whether a beginner or a pro, we can suit all needs, ages and abilities. The hour of 'dance' in the Main Stage School offers students the opportunity to work as a team, perform in front of each other on a weekly basis, learn all dance styles (ballet, tap, modern, jazz, contemporary & street) as well as being able

to develop techniques to move and perform on stage. Rhythm, musicality and confidence play a huge role in this session. Our fantastic dance teacher Hayley Smith has worked with children of all ages for the past ten year. Choreographing routines and challenging the students to push their ability further each week is just part of the great work she creates with our 5 - 16 year olds.

Drama

Improvisation, character-building, role play, learning scripts, mime, slapstick..., the list goes on in drama and we do them all! Within the comfort of our beautiful drama studio, students are encouraged to be whoever they want to be. With different acting techniques thrown at them each week, Melissa Marsden our drama teacher, takes the students on a new adventure through the art of theatre in each session. Drama skills are a fantastic tool to have as a young adult. Speaking clearly and confidently in front of others whilst dealing with the pressure of a watching audience is tough for most adults, whereas here at Inspire we are confident that our students can not only perform to large crowds, they can stand up and deliver speeches, monologues, comic sketches and any other topic of conversation without breaking a sweat. Movement skills, flexibility and learning how to carry yourself as a performer is our main focus in this class. With fantastic results, progression and dance ability development in all of our students, we look forward to the new challenges our dynamic dancers are faced with every week, and we never fail to have a lot of fun whilst working our socks off.

Music

A huge part of our work here at Inspire involves the art of music on so many different levels. With pop-culture playing such a large role in our lives it's not surprising that young children often dream of becoming the next Taylor Swift or Sam Smith. We work passionately towards developing the voices of our students into the strong, confident sounds we hear on our radios.

Angela Lyons has been singing professionally since she was 18 and has the training and experience to help our students take

their vocal ability to the next level. Focusing on vocal tone, pitch and rhythm through musical theatre and a wide variety of other genres, students are given the opportunity to try new challenges in every session. With weekly performances and new projects each term, we are constantly amazed at the level of vocal talent and ability we have within our 6 - 16 year olds.

What Do We Offer?

- Specialised coaching in dance, drama and music delivered by professional and fully qualified Performing Arts teaching staff.
- State of the art equipment in sound and lighting for termly shows.
- Fully fitted sprung floor dance studios with mirrors and ballet bars.
