I bet you scored above 10!

The global pandemic has prevented us from living our lives the way we would like to. But companies like amazon and other delivery companies have kept us connected.

Globalisation and Amazon – Gifting the nations of the world...

Globalisation has made the world a smaller and more connected place thanks to better internet, communications and technology.

Multinational corporations, like Amazon, increased global trading and the internet have brought people closer together.

Also communication platforms have surged in popularity...

How have you communicated with your friends, family and teachers during lockdown?

Communicating during a Pandemic

<https://www.youtube.com/watch?v=vHRK9DIy4fM>

Without globalisation – This pandemic would have been very different.

- Write a diary entry for a day in your life during lockdown. Think about all of the things you did, and all of the technology you may have used.
- This can be a real day or it can be made up, but I want you to focus on the idea of how globalisation played a part in your day e.g.

- You ordered Indian food from the local take way.
- You played a game online with a friend in Australia.
- You face timed or video called your relative to say happy birthday.
- You ordered 10 pocket hugs from amazon for everyone in your family.

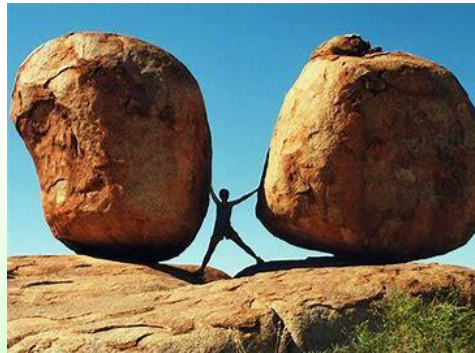

- Try and make it clear how, without globalisation, the internet, better technology and multinational companies like Amazon, this would not have been the case.

Despite a global pandemic, globalisation has made us more connected then ever before!!!

Remember – We can walk it out.
We can move mountains!

We can't wait to meet you, safely, in the future.
Stay safe.
